COMPANY PROFILE

INTRODUCTION

Voltics Renewable Pvt Ltd (Previously Known as Veto Infra Services)is dedicated to advancing solar and electrical applications through quality-driven, timely, and loyal service. We focus on optimizing resource utilization, comparing outcomes against benchmarks, and applying continuous improvement strategies to refine our operational model. Our vision is to foster energy independence and support sustainable development by conserving today's resources for future generations.

25+

COLLABORATIONS

B-B Business to bridge demand & supply.

400+

PROJECTS

On-Grid, Off-Grid, Utility Project, Pumps

OUR MISSION

To deliver impeccable renewable energy systems to our consumers by ensuring reliable service, timely execution, and technically sound, cost-effective solutions—driven by expertise, commitment, and a focus on long-term value.

OUR VISION

To create unparalleled value and a robust methodology for delivering reliable renewable energy solutions to every consumer. Our unwavering fidelity and enthusiasm reinforce our commitment to the core principles of quality service and integrity.

COMPANY PROFILE

COMPETITIVE ADVANTAGE

Our USPs—quality service, timely execution, advanced design, and client focus—set us apart by ensuring reliable, efficient, and value-driven renewable energy solutions.

01

Bridging Advanced Technologies

We connect cutting-edge solar innovations with real-world applications to ensure every client benefits from the best available technology.

02

Precision-Driven Design & Execution

Every project is engineered with accuracy and installed with strict adherence to quality and safety standards for long-term performance.

03

Transparent, Client-Centric Approach

From consultation to commissioning, we ensure complete clarity, personalized solutions, and dedicated support tailored to every client's needs.

04

Commitment to Sustainability & ROI

We optimize systems for maximum energy yield and financial returns, contributing to both environmental impact and economic value.

COMPANY PROFILE

BENEFITS OF SOLAR ENERGY

"While business investments typically yield profit, investing in solar delivers both economic gain and a sustainable future."

Renewable & Sustainable

- Solar energy is a clean, inexhaustible resource that replenishes naturally, making it ideal for long-term sustainable energy needs.

Significant Cost Savings

- Solar systems drastically reduce electricity bills, offer low maintenance costs, and ensure high return on investment over time.

Environmental Friendly

- Solar power produces zero emissions, helping reduce carbon footprint while also enabling users to generate their own electricity and reduce dependence on the grid.

Tax Benefit

- Businesses can claim up to 40% accelerated depreciation (as per prevailing tax laws in India), allowing them to recover investment faster and reduce taxable income.

Customers

Our Projects

Utility Scale Projects

- 5 Mw EPC at Solapur, Tumsar
- 10 Mw O&M
- 20 Mw PPA Consultation
- 10 Mw Project Consultancy

Industrial Projects

- Cumulative 4 Mw+ capacity
- Key Customers: Empire Industries, ABS Electroplates, DI-Aluminium, Egale Burgmann, Known-You Seeds

Residential/Commercial

- Cumulative capacity 2.5Mw+
- Seci Subsidy: Key Projects: Aditya Green City, L-Axis

Pumps Project

- 4000+ Execution
- I&C partner of L&T, Shakti Pumps, Tata Power, KSB Pumps Ltd

COMPANY PROFILE

FUTURE OUTLOOK

◆ **Note: Graph is pictorial & is significant pictorial presentation of project volume.**

60%

GROWTH (PROJECT VOLUME)

YEAR ON YEAR GROWTH IS ESTIMATED 60% SINCE FROM 2022

35%

REVENUE ANALYSIS

Reaching at this step we have established our company as system driven company & lots of investments are done as seeds for upcoming years to boost our company ecosystem.

Sustainability development defined
as “Development that meets the needs of
the present without compromising the
ability of future generations to meet their
own needs.”
